

September 4, 2014

This is the Readme file for the replication files of “The Role of Lactase Persistence in Precolonial Development” by C. Justin Cook. The zipped folder contains:

1. A STATA dta file labeled “lpf\_base\_web.dta” that gives the necessary dataset for Tables 2-8 in the included do-file.
2. A STATA do file labeled “lpf\_web\_do.do” that replicates all tables within the paper.

If there are any questions or to request necessary files for the Supplemental Appendix, please contact Justin Cook at [jcook9@ucmerced.edu](mailto:jcook9@ucmerced.edu).
